

Paul's Rocket Stoves Sitemap

The landing Page is the Homepage. From there, you can access all 6 other pages/nodes (there are 7 nodes/pages total (including the homepage) See Diagram. All pages/nodes can access all others via links such as in the menu.

There ARE image files accessible on the Portfolio page, and those are exceptions to this as they are not connected to anything other than the portfolio page and they linked on the footer of every page (see Flicker)
